

Harol Guerrero Salgado

Full Stack Software Developer

Colombia | +57 321 563 4429 | haroldguerrerosena@gmail.com

www.linkedin.com/in/harold-salgado-498a60354 | github.com/DevCat-HGS

Seeking: remote roles, or hybrid / on-site roles in Medellín

PROFESSIONAL SUMMARY

Software developer with a core in JavaScript, TypeScript and Python, building web and mobile applications with React, Next.js, Node.js and Flutter. Experience with serverless architectures on AWS and generative AI integrated into support workflows. Uses AI-assisted tools (Claude, Cursor, Trae) to adapt quickly to each team's stack. Currently maintaining, testing and developing features for a social platform on Android, iOS and Web.

WORK EXPERIENCE

Full Stack Developer

Sep 2026 - Present

MIGOZZ | Startup, Colombia

- Maintain a live social platform for creators, brands and artists across Android, iOS and Web.
- Perform QA testing of new features and regression checks before each release.
- Develop new features across the Flutter application and the Firebase backend.
- Resolve issues and deliver fixes through pull requests and code review.

Technologies: Flutter, Dart, Firebase, Cloud Functions, Stripe

IT Apprentice, SAP / SAP Fiori Development

Jan 2026 - Jul 2026

Mitsubishi Electric de Colombia | Bello, Colombia

- Worked with the SAP team on the full-stack migration of SAP services for five business areas, splitting coverage by area and advising each other on blockers to speed up delivery.
- Developed and refined OData services and SAP Fiori / SAPUI5 applications, reducing data overhead and keeping the code clean and maintainable.
- Diagnosed and resolved incidents in SAP features and services, validating results with functional tests before production release.

Technologies: SAP Fiori, SAPUI5, OData, JavaScript

EDUCATION

Technologist in Software Analysis and Development

Sep 2026

SENA (Servicio Nacional de Aprendizaje) | Cauca, Antioquia, Colombia

Systems Technician

Nov 2023

SENA (Servicio Nacional de Aprendizaje) | Cauca, Antioquia, Colombia

Academic High School Diploma (Bachiller Académico)

Dec 2023

Institución Educativa Santo Domingo | Cauca, Antioquia, Colombia

TECHNICAL SKILLS

Core: JavaScript, TypeScript, Python

AI-assisted Development: Claude, Cursor, Trae

Other Languages: Dart, C#, C++, SQL

Frontend: React, Next.js, HTML, CSS, Sass, Tailwind CSS

Backend and Databases: Node.js, Express, PostgreSQL, MongoDB, MySQL, Firebase, Supabase, OpenSearch

Cloud and DevOps: AWS (Lambda, API Gateway, Bedrock), Google Cloud, Docker, Git, GitHub Actions, CI/CD, Linux

Mobile: Flutter, Dart, Android

AI and Automation: Generative AI, Amazon Bedrock, semantic search, Make

Other: Unity, Arduino, SAP Fiori, SAPUI5, OData, QA testing

Languages: Spanish (native); English (SENA English Does Work, Levels 1 and 2)

SELECTED PROJECTS

ARIA | Client: Arix Group

Generative AI assistant for SAP processes on a serverless AWS architecture, with retrieval over OpenSearch and escalation to a human consultant.

Technologies: AWS, Lambda, Bedrock, OpenSearch, Python, React

Hecho en Sabaneta

Local commerce platform with business directory, product catalog, shopping cart and events.

hechoensabaneta.com

Technologies: TypeScript, Next.js, Firebase, Google Cloud

Arcoiris Zapatería

Service website for a family workshop in Medellín with a catalog of 50+ services, before/after gallery and guided diagnosis to WhatsApp. arcoiriszapateria.com

Technologies: TypeScript, Next.js, Firebase, Google Cloud

SENA Cloud | Client: SENA, institutional project built during my training

Academic and administrative management platform with multiple user roles and permission control.

senaccloud.netlify.app

Technologies: TypeScript, React, MongoDB, Tailwind CSS

SensoresAPP | Client: SENA, institutional project built during my training

Flood early-warning prototype using water-level sensors for nearby communities.

Technologies: Arduino, C++, IoT

Chaman Tarot Dashboard | Client: Inversiones Amazónica S.A.S.

Dashboard for managing readings with AI-generated predictions and Make automations.

Technologies: React, Supabase, Make

CashWin | Client: Inversiones Amazónica S.A.S.

Real-time multiplayer dice game with payment integration.

Technologies: Unity, C#, Photon PUN 2, MercadoPago

Farmacia Admin | Client: Droguería Medifarma

Private inventory, sales and reporting system for a pharmacy.

Technologies: React, JavaScript, MongoDB

TRAINING AND CERTIFICATIONS

- Software Testing (SENA, Oct 2025, 48 hours)
- Exploratory Data Analysis with Python (SENA, May 2024, 48 hours)
- Data Cleaning and Transformation with Python (SENA, Sep 2024, 48 hours)
- English Does Work, Level 1 (SENA, Nov 2024, 48 hours)
- English Does Work, Level 2 (SENA, Jul 2025, 48 hours)

AWARDS AND RECOGNITIONS

- Orgullo SENA 2024, Technical Performance (SENA Antioquia, 2024)
- Aprendiz Integral, Special Recognition (SENA, Complejo Tecnológico para la Gestión Agroempresarial, Sep 2023)
- Recognition for outstanding all-round professional training (SENA, Complejo Tecnológico para la Gestión Agroempresarial)
